Code Compliance Department

2018 Code Compliance Initiative

The City of Lake Worth is committed to promoting and protecting the health, safety, and welfare of all of its residents, business owners, and patrons as well as protecting and improving the overall beauty of the city. With this in mind, the City is introducing a Code Compliance Initiative for 2018 in order to ensure that properties within the city limits are maintaining compliance with the City of Lake Worth's Code of Ordinances. It is part of the Lake Worth Code Compliance Department's mission to achieve voluntary compliance with our ordinances, and as such we are taking an education first approach with this initiative followed by enforcement when needed.

The calendar on the reverse side of this page serves as the rollout schedule for the Code Compliance Initiative. At the end of each month as indicated on the calendar, Lake Worth Code Compliance will begin opening cases on those properties not in compliance with the nuisance listed for that specific month. *

As the Code Compliance Initiative moves forward, the City will be sending out mailers/flyers and keeping the Code Compliance webpage up to date with more specifics on various violations, compliance education, and community resources to help gain voluntary compliance. If you or somebody you know is aware of a volunteer group or association in the Lake Worth community that may be able to assist those in need with obtaining compliance on their properties, please let our office know and we will make sure to add them as a community resource on our website.

Lake Worth Code Compliance would like to thank you in advance for your dedication and efforts to keeping Lake Worth a healthy, safe, and lovely place to live, work and play!

JULY 2018 EMPHASIZED VIOLATION

ARTICLE 13.1200 LAWN AND LANDSCAPE IRRIGATION

Sec. 13.1201 Restrictions

(a) Lawns and landscaping may be watered on any day, at any time, by handheld hose, drip irrigation, a soaker hose or tree bubbler. (The intent of this measure is to allow for the protection of structural foundations, trees, and other high value landscape materials.)

Except for hand watering, drip irrigation and the use of soaker hoses, a person may only irrigate, water, or cause or permit the irrigation or watering of any lawn or landscape, inclusive of structural foundations, trees, and other high value landscape materials, located on premises owned, leased, or managed by that person (i) on a day designated as an outdoor water use day for the property's address as shown below; and (ii) between the hours of 12:00 midnight to 10:00 a.m. and 6:00 p.m. to 11:59 p.m. on such day.

- (1) Residential addresses ending in an even number (0, 2, 4, 6 or 8) may water on Wednesdays and Saturdays.
- (2) Residential addresses ending in an odd number (1, 3, 5, 7 or 9) may water on Thursdays and Sundays.
- (3) All nonresidential locations (apartment complexes, businesses, industries, parks, street and/or roadway medians, etc.) may water on Tuesdays and Fridays.

(b) Except for hand watering, drip irrigation and the use of soaker hoses, a person commits an offense if that person irrigates, waters, or causes or permits the irrigation or watering of any lawn or landscape located on premises owned, leased, or managed by that person between the hours of 10:00 a.m. and 6:00 p.m.

(c) Except for hand watering, drip irrigation and the use of soaker hoses, a person commits an offense if that person irrigates, waters, or causes or permits the irrigation or watering of any lawn or landscape located on premises owned, leased, or managed by that person on a day that is not designated as an outdoor water use for that property address as shown in subsection (a) above.

(d) A person commits an offense if a person knowingly or recklessly irrigates, waters, or causes or permits the irrigation or watering of a lawn or landscape located on premises owned, leased or managed by the person in a manner that causes:

- (1) A substantial amount of water to fall upon impervious areas instead of a lawn or landscape, such that a constant stream of water overflows from the lawn or landscape onto a street or other drainage area; or
- (2) An irrigation system or other lawn or landscape watering device to operate during any form of precipitation.

(e) A person commits an offense if, on premises owned, leased, or managed by that person, a person operates a lawn or landscape irrigation system or device that:

- (1) Has any broken or missing sprinkler head; or
- (2) Has not been properly maintained in a manner that prevents the waste of water.

SWIMMING POOLS

All swimming pools (above or in ground) require a permit prior to installation and shall meet the requirements of the currently adopted International Residential Code and the currently adopted National Electrical Code. Pools require proper fencing around them and door alarms installed at the residence.
