

# TRANSPORTATION PUBLIC MEETING

OCT. 9 · NOON · 616 SIX FLAGS DR. ARLINGTON, TX

## PRESENTATIONS

### Mobility 2050: The North Central Texas Metropolitan Transportation Plan

One of the primary responsibilities of a Metropolitan Planning Organization (MPO) is the development and maintenance of a Metropolitan Transportation Plan (MTP). NCTCOG staff has initiated the development of an update to the current MTP, Mobility 2045 Update, and will provide an overview and proposed timeline for the Plan.

### 2023 Air Quality Transportation Conformity

The Environmental Protection Agency (EPA) approved a new emissions ceiling, known as Motor Vehicle Emissions Budgets (MVEBs), for the Ozone precursors of Oxides of Nitrogen (NOX) and Volatile Organic Compounds (VOC) for the DFW Ozone Nonattainment Area. Per the Clean Air Act (CAA), the MPO needs to perform an air quality analysis to determine that the NOX and VOC emissions results related to the MTP are below the established MVEBs. The NCTCOG staff has conducted successful analyses for the required MVEB analysis year, the MTP horizon year, and the interim years and will provide an overview of the results.

### The Environmental Protection Agency's Climate Pollution Reduction Grants Program

NCTCOG has applied for the Environmental Protection Agency's (EPA) Climate Pollution Reduction Grants (CPRG): Planning Grants Program. CPRG will provide funding to develop a plan on behalf of the Dallas-Fort Worth region to reduce greenhouse gases and other harmful air pollutants. After developing a plan, eligible entities will be able to pursue funding from the EPA for implementation. Staff will provide details on the planning grants and how to get involved.

## ONLINE REVIEW & COMMENT

**Proposed Administrative Amendments to Mobility 2045—2022 Update**
